EspejelKevin 

## TARGET

Perform proactively within a professional environment, solving different social and business problems with the use of technological tools.

## EDUCATION

**TSU in ICT | University Technological Tula - Tepeji**

2020 – 2022

My goal is to maintain a good academic performance until the end of the school year.

**High School Mechatronic | CETis No. 26**

2015 – 2018

Achievement:

- International participation in the IRH forum in Tokyo, Japan.

## PROJECTS

**Accounting system | Python**

I have developed a small accounting system using Python. One of my problems was the connection to the database, to solve it I had to consult the official MySQL documentation.

**BULBI | Arduino**

BULBI is my little friend controlled from my cell phone. One of my problems was the configuration electronic of BULBI, but I could solve it with the support of my mechatronics teacher.

**My site web | WordPress and Azure**

I wanted a site web with the same information of my Facebook page, so, I decided to create my own site web with WordPress and Azure because I had free credits in my Azure account.

## SKILLS

- Be a self – taught person.
- Be a hardworking person.
- Adaptability.
- Good communication.
- Teamwork.
- Empathy.

## ACTIVITIES

Actually, my passion is the technology, but I love to play soccer or do exercise. On the other hand, I have a Facebook page that talks about motivation and my life experiences. In the last six months, I have obtained a certification in the Python programming language and a certification in Fundamentals of Innovation in Industry 4.0 with Microsoft technologies. My dream is to travel the world and always be part of the world of technology because you are learning something all the time.
